PRICE GUIDE 2013

## PHOTOBOOTH

JPG Photography offers an open-air photobooth allowing for great shots of bigger groups, doing away with the old days of cramming your friends into a tiny box. We share fun props, and our clients bring their own, or even add a background or step-and-repeat to showcase the event. The booth is a constant hit, and we print 4x6 prints that last.. Ask us how we can help your organization raise money, too, by collecting additional cash for prints at benefits and fundraisers.

## PRICING

- Every Photobooth setup receives a friendly, dedicated attendant so you don't have to worry about a thing.
- We share fun props including crazy hats, glasses and disguises. We encourage you and your guests to bring their own, too.
- We'll create a photo gallery you and your guests will be able to view to check out their poses. We can even password-protect the gallery for privacy.
- No limit on the number of photos we'll take! Hop in and out as much as you like.
- You receive the final images! That's right, take those images to share online.
