Your image is printed directly onto bamboo with 1/4-inch backing. Bamboo is an eco-friendly, renewable resource that provides a subtle but distinctive texture and warmth to your image. As with all fine art prints, your image is printed with archival quality water-based inks. The bamboo is treated with a proprietary receiving layer to further ensure that vibrancy and color do not fade with time.

Acrylic Prints let your room's natural light bring out the rich color and intricate detail of the image. A giclée print is face-mounted to a crystal clear acrylic substrate. This process maximizes image clarity and crispness, resulting in an overall effect that's vivid and modern. All acrylic prints receive polished edges, and can be either floated on a recessed mounting bracket or finished with aluminum stand-offs.

Metal Prints infuse dye directly onto high-quality aluminum sheets, letting your image radiate with luminous color and depth. Crisp edges and gently rounded corners display a clean, contemporary style. Showcase your Metal Print with your choice of mounting: a kickstand easel, a recessed frame with hanging wire, or 1"-deep corner stand-offs.
